

Officer Jonathan Gee's Bio

I graduated from William Jessup University in 2012 with a BA in Pastoral Ministries. After graduation, God led me on a different path from ministry to law enforcement. In 2015, I graduated from the Sacramento County Sheriff's Academy and have served as a sworn peace officer for 9 years as a Police Officer with the Rocklin Police Department. During my time as a Police Officer, I have primarily worked in Patrol, served on the Social Media Team, worked as a Field Training Officer (FTO), am a current Unmanned Aerial Systems (UAS) Pilot, founded the Homeless Outreach Team (HOT), and am currently serving an assignment in the newly founded Community Oriented Policing and Problem Solving (COPPPS) Unit.

Being assigned to our newly found COPPS Unit has been the best assignment of my career thus far. Our team focuses on homeless outreach, transient-related issues and enforcement, targeting organized retail crime, finding retail theft suspects, community blight, massage parlor compliance, a tobacco grant, and assisting Placer County Probation with regular follow-up on Probationers and PRCS subjects. Many times our tasks, projects, and responsibilities take us all over the region and allow us to work with many other agencies and units to help others, solve problems, hold people accountable, and find our suspects.

Working as a Police Officer and being a Christian has its own unique challenges, but I am thankful for the Lord, my faith, and my family as I would not have made it this far in my career without the Lord guiding my steps. It is an honor to return to Jessup University to participate with others in a day of prayer for our school, community, and region.
