

## Adjunct Professor - Math

### Position Description

The Undergraduate School is actively seeking qualified adjunct professors to teach math in the General Education department.

Applications for adjunct (temporary, part-time) positions are currently being accepted in order to create a pool of qualified candidates for both traditional on-site courses and/or online courses. The number of available positions varies from term to term. All persons recommended for employment must complete the required documents for employment. Applications for the Part-time Faculty Pool are accepted on an on-going basis.

### Minimum Requirements

- Master's degree or equivalent experience
- Teaching experience in college algebra, pre-calculus, and calculus is preferred. Courses that need adjunct instructors may vary by semester. Women and ethnic minorities are strongly encouraged to apply.
